Our Work in Action

Founded in 2010, MicroHealth provides comprehensive IT solutions and support to Federal Government agencies. With a record of supporting multiple system development, integration, and implementations, we help clients address complex challenges and achieve mission-critical objectives in the digital landscape.

Dept. of State (DOS)

Protected Health Information Management System (PHIMS)

Digitize and centralize globally dispersed physical medical records, improving accessibility, security, and long-term preservation of critical health information.

Virtual Medical Specialist Consultations (VMSC)

Dept. of Energy (DOE)

Facilities Information Management System and Condition Assessment Information System (FIMS/CAIS)

Provide application software development and maintenance, helpdesk support, infrastructure services, website maintenance, Federal reporting compliance, data analysis, and validation.

Dept. of Homeland Security (DHS)

DHS | Federal Emergency Management Agency (FEMA)

Independent Verification & Validation (IV&V) Oversight
FEMA's Office of the Chief Information Officer (OCIO)

DHS | Transportation Security Administration (TSA)

Flexible Agile Scalable Teams (FAST)

DHS | U.S. Coast Guard

Telehealth

Securities & Exchange Commission (SEC)

Freedom of Information Act (FOIA)

Ensure accessibility and proper display of SEC.gov content through document conversion, data entry, scanning, redaction, filing, quality control, and collaboration services.

Dept. Health & Human Services (HHS)

An Award-Winning Project

Grants.gov IT Services

Ensure seamless system operation, modernize grant application processes, migrate to the cloud, and fortify security across 180M records supporting 16M users.

Technology Team of the Year, Government Technology (2024)

Technology Excellence Awards, Silver Stevie

Technology Team of the Year (2023)

International Business Awards, Bronze Stevie

HHS | Centers for Disease Control and Prevention (CDC) | National Center for Injury Prevention and Control (NCIPC)

Partners Portal Support

Modernize the portal, while improving user experience and preserving the security of the data that flows through the system, which is where partners provide reports on the activity of various initiatives related to drug overdose, injury prevention, and violence prevention.

HHS | National Institutes of Health (NIH) Office of the Director (OD)

TMC Graphics & Video Services

Provide ongoing 508-compliant services for projects facilitated by TMC related to communications, design, content and graphic creation, and video production.

Technology, Marketing, Communications (TMC) Website Development
