Improving security, performance, and UX for Grants.gov

HEALTH AND HUMAN SERVICES (HHS)

Grants.gov needed a more robust, centralized platform for public access to federal grants. MicroHealth's IT Services contract is geared toward **ensuring seamless system operation, modernizing grant application processes, and fortifying security** to meet growing demands.

MicroHealth stepped in to help update the system for more efficient and reliable access for applicants and grantors. Modernization has reduced costs, improved capabilities, and integrated systems for a user-friendly experience.

Let's do more, together.

Our Work in Action

IT Modernization for Grants.gov

SOFTWARE DEVELOPMENT | MODERNIZATION | SECURITY

GRANTS.GOV SNAPSHOT

- Serves as a central clearinghouse for 4,000+ annual grant funding opportunities
- Connects applicants with 300+ federal agency programs
- Has more than 9 million users

THE WHAT

- Development, modernization, and enhancement (DME) support
- Website migration and communications
- Cybersecurity, operations, & maintenance
- Modernization (human-centered design, cloud infrastructure and managed services, API-first and micro-services architecture)

THE WHY

- Decreased application process time by over 90% (from 2+ mins to under 12 secs)
- Reduced query run times by an average of 90% by tuning top 25 database queries
- Reduced login time by 66% (from 3 seconds to under 1 second)
