

Using data to inform decision-making for the USFHP

DOD | DEFENSE HEALTH AGENCY | TRICARE

At MicroHealth, we're transforming USFHP's data infrastructure to better **support advanced analytics capabilities and drive informed decision-making.**

This transformation is pivotal for seamless care management and program administration, connecting diverse data sources to drive utilization review, quality monitoring, and population management in a modernized data environment hosted on AWS GovCloud.

**Let's do more,
together.**
